- Mobile IDX Available**

Specially designed

The flexmls Mobile system is specially designed for small device web browsers, and yet provides complete listing information. It is also designed to support some older devices as well as the newer touch-screen phones.

Simply point your HTML browser on your mobile device to **m.flexmls.com** enter your username and password and you are ready to go mobile!

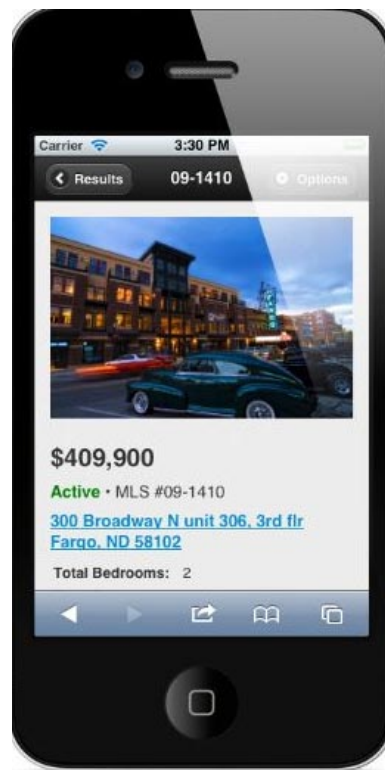

Photo Tour

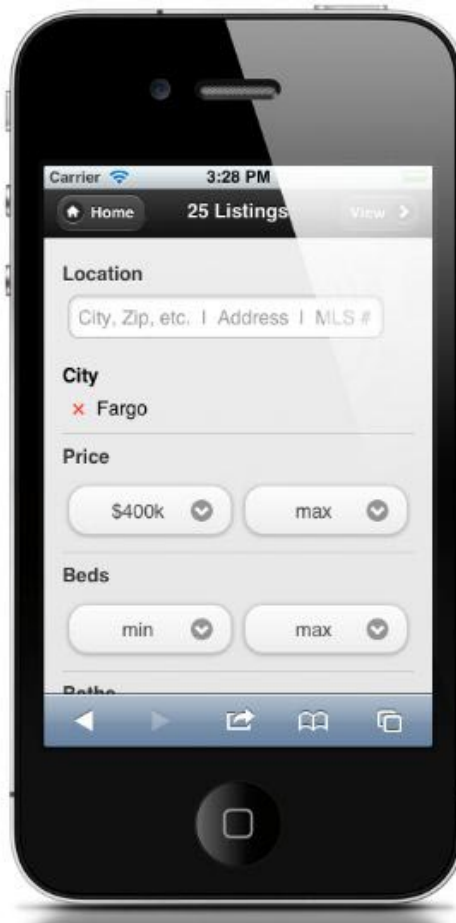

View all the listing photos full screen or use the auto-play feature at open houses to show the listing photos on your iPad.

Touch Enabled

Flexmls Mobile is designed specially for touch-screen devices like the iPhone, iPad and Android phones. Swipe through photos and navigate maps using your touch screen.

* Photo upload capabilities vary by device

** Mobile IDX available for an additional fee, please inquire for details

Nearby Listings

For location-aware phones, we provide a one-click search to show the listings nearest to your location.

Search Options

Flexmls Mobile includes the ability to create a new search by location, price, bedrooms, bathrooms, square feet, property type, and sub-type. Additional search options are available via saved searches.

Saved Searches

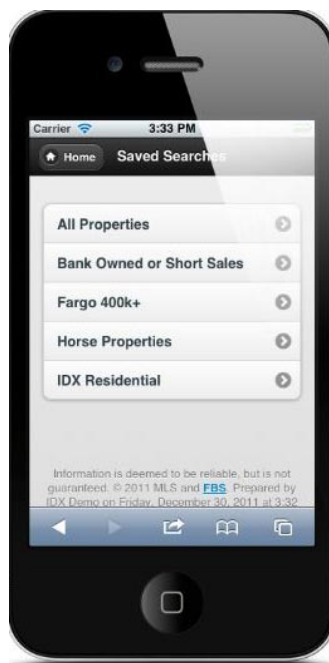

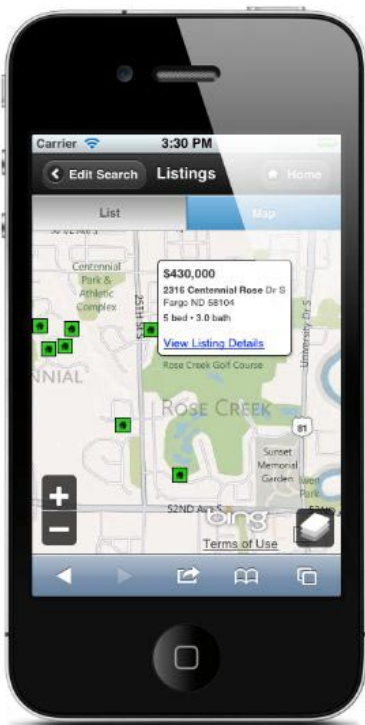

The searches you create in Flexmls Web are available for viewing on Flexmls Mobile.

Carts and Notes

Save listings to carts from your mobile searches or set up listings in carts on Flexmls Web for viewing on your mobile device. Take notes on listings while you're out in the field and view them later in Flexmls Web.

Home Page Bookmark

If you're using an iPhone or iPad, you will be prompted to add a bookmark to your home screen to the Mobile IDX site.

Simply point your HTML browser on your mobile device to **m.flexmls.com** enter your username and password and you are ready to go mobile!
